## About the Program

The Science and Technology Department, Government of Odisha has collaborated with BCKIC Foundation in its mission to create awareness about Intellectual Property Right in the State of Odisha and is organizing a “Two days Training program on Patents”. The program is well structured, focused and result oriented. The program focuses on different aspects of Patents, how to convert the research works/project works into Patents and Hands on training on patent searches, patent drafting and prosecution.

## Topics to be Covered

1. Introduction to IPR (Overview of IPR with examples and Importance of IPR)
2. All about patents (Overview of patents, patentability criteria, examples on patentable and non-patentable innovations, how to read a patent document, brief on types of claims)
3. Patent Search (Hand-on training on various patent databases, different type of patent searches, how to create a search string and conduct searches)
4. Patent Filing (Basic structure of patent specification, prosecution stages of Patents, e-filing at Indian Patent Office, Form and fees)
5. Patent Examination (Tackling the First examination Report (FER) and hearing notice, understanding an FER and hearing notice, how to respond to the FER AND hearing notice with examples)
6. A walkthrough of Manthan, India's Platform for Research & Innovation

**Please note:**

*Certificate will be given to all the participants*

*Registration is mandatory*

*No registration fees required*

*90% Attendance is mandatory in the workshop to receive certificate*
