SKILLS

Problem solving
Decision making

LANGUAGES

Odia , Hindi , English

INTERESTS

I have deep interest in learning and teaching mathematics.

ACHIEVEMENTS & AWARDS

I have been awarded GOLD MEDAL in B. Sc from Berhampur University.
I received Laptop in Intermediate level

OBJECTIVE

I have done M.Sc in Mathematics from BANARAS HINDU UNIVERSITY. I am smart and hard working person.I seek challenging opportunity where I can fully use my skills for the betterment of the Institution. I would really want to develop a few skillsets of my own, a few tactics of my own and work culture of my own where I prove myself an asset not just to the institution but to the people who are working with me ,so that I would love to know that they can count on me for some good helpful advice. I would be that inspiration to them and in the process I would not just achieve my own dreams rather I am sure, I will be able to achieve a few dreams of my parents too. This is a great way towards proving my self-worth towards achieving my dreams and my parents dreams. My aim is to pursue PhD in mathematics.
